

How to insert individual stickers into your Goodnotes planner

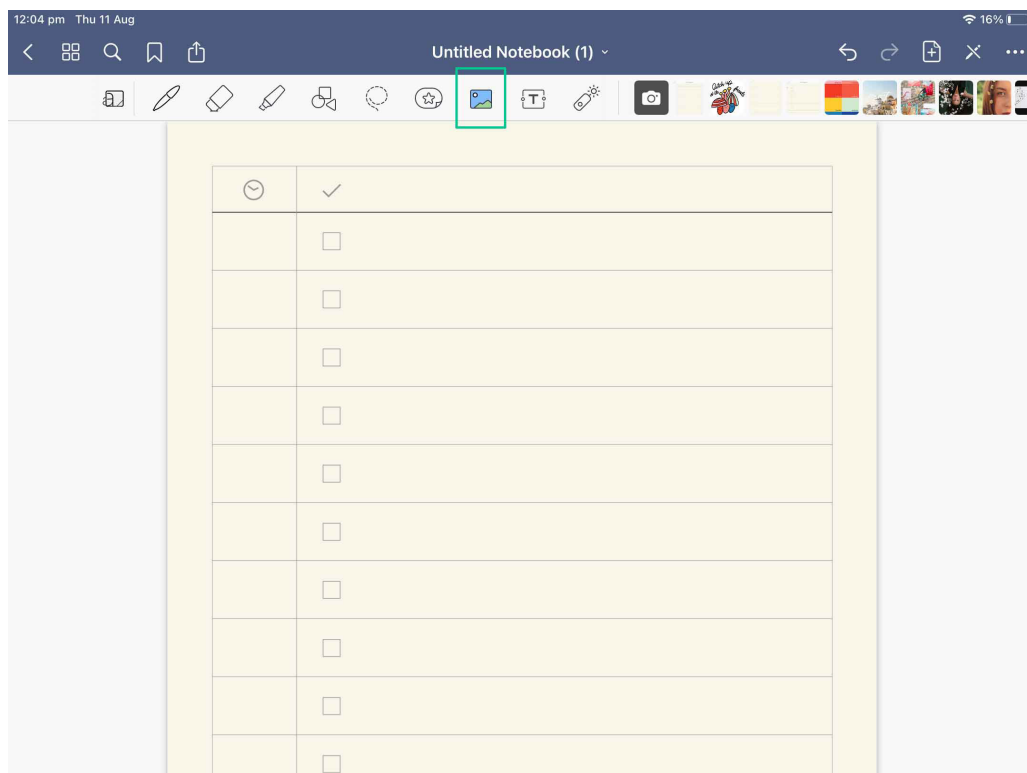

1. Download the zip folder
2. Unzip downloaded folder. Select stickers and share to your Ipad via AirDrop.

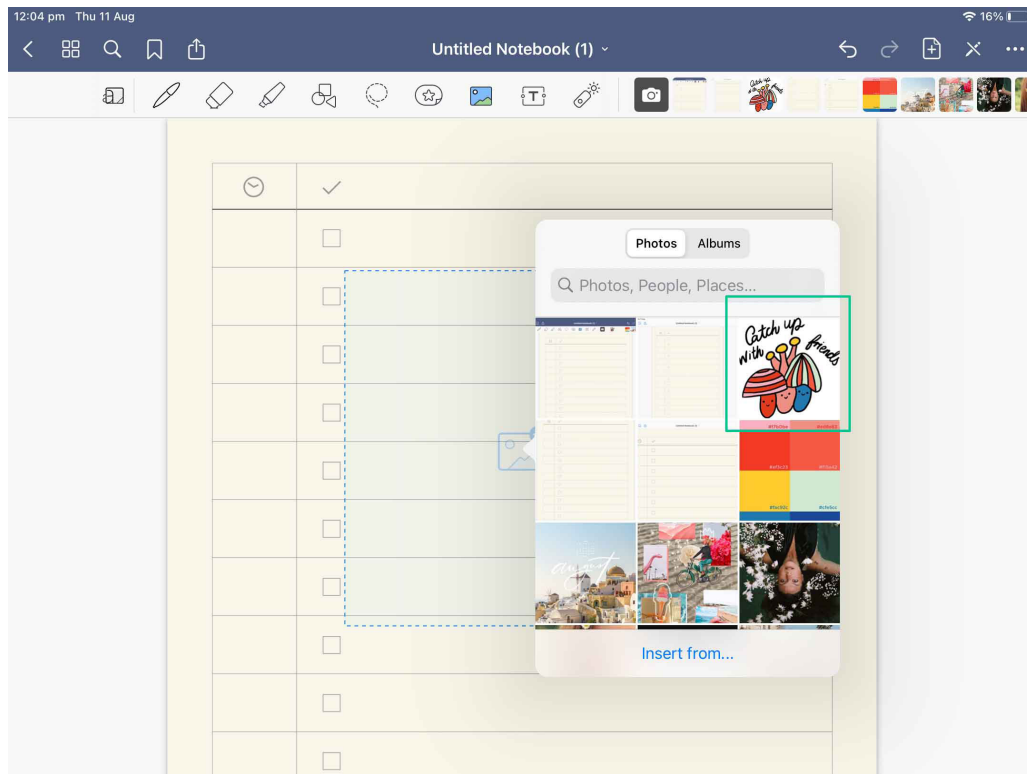

3. Open up your digital planner in Goodnotes. Select the pen tool in the top right hand corner.

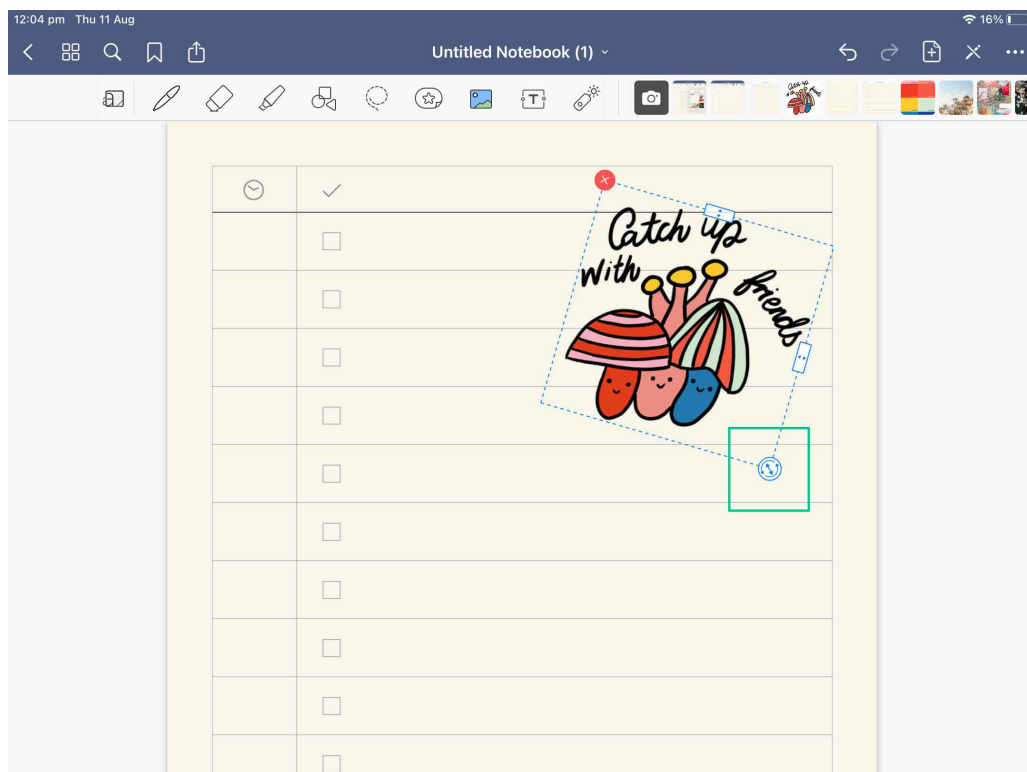

4. The top bar will now turn blue enabling you to edit your planner. Press on the image icon and choose which sticker you'd like to insert.

5. A window will pop up. Navigate to where you saved your stickers. Select the sticker you want to insert into the planner.

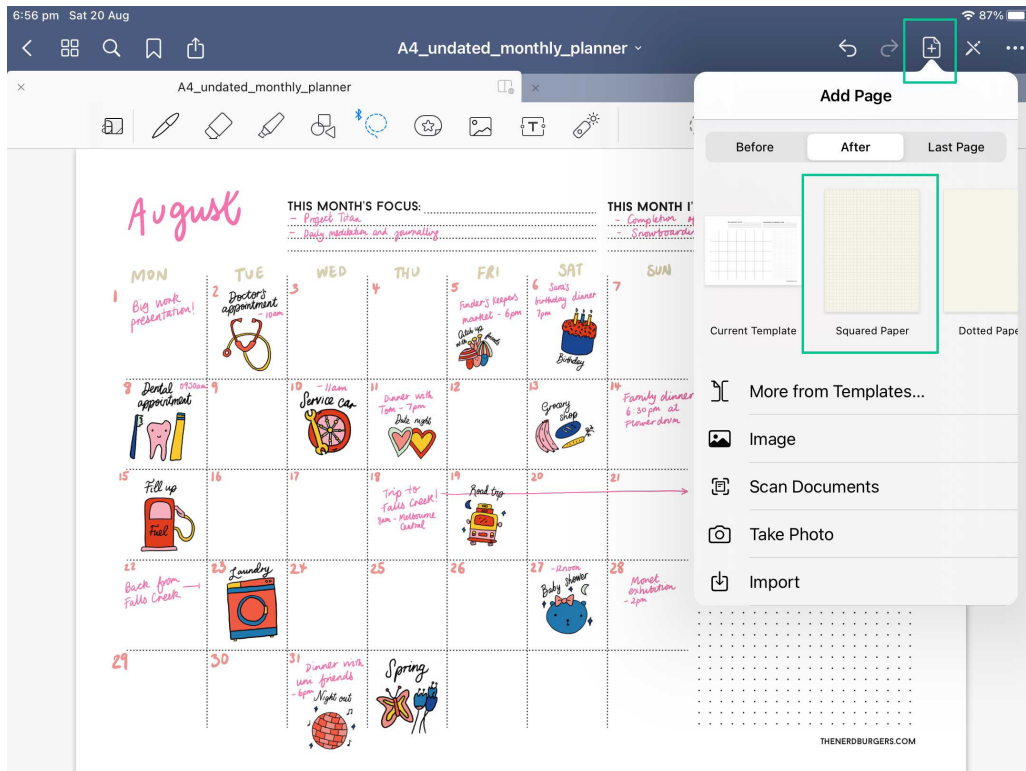

6. The sticker is now inserted into your planner. Drag it around and place on your page. You can drag the bottom right hand size circle to resize as desired.

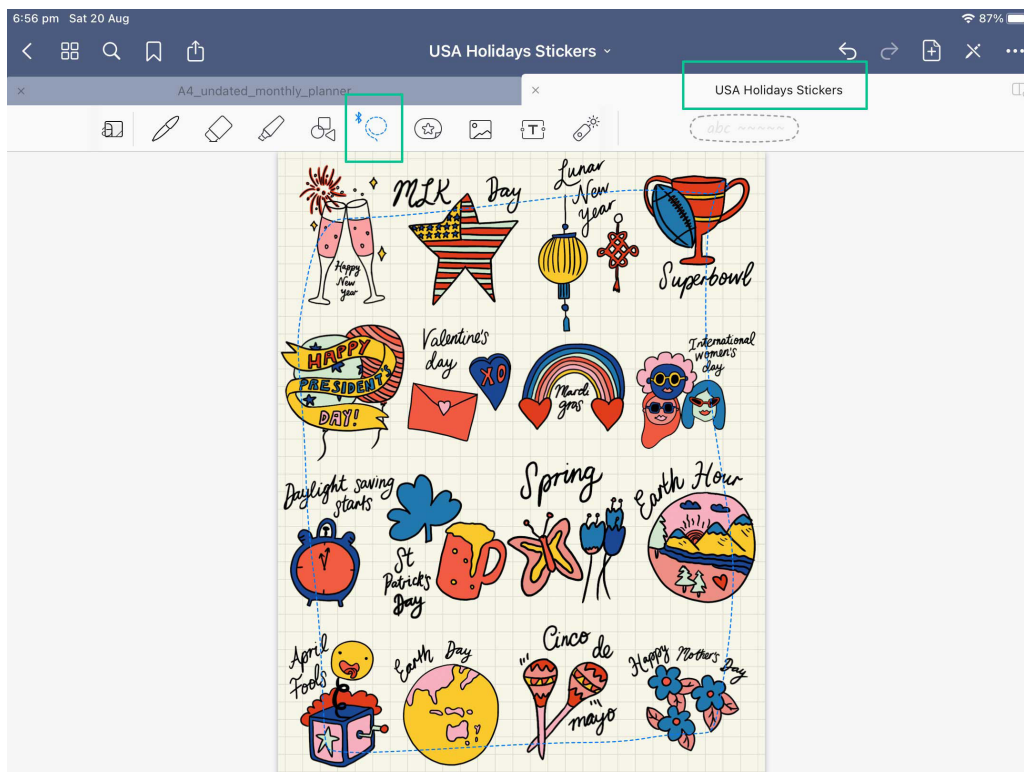

How to insert pre-cropped digital sticker sheets into your Goodnotes planner

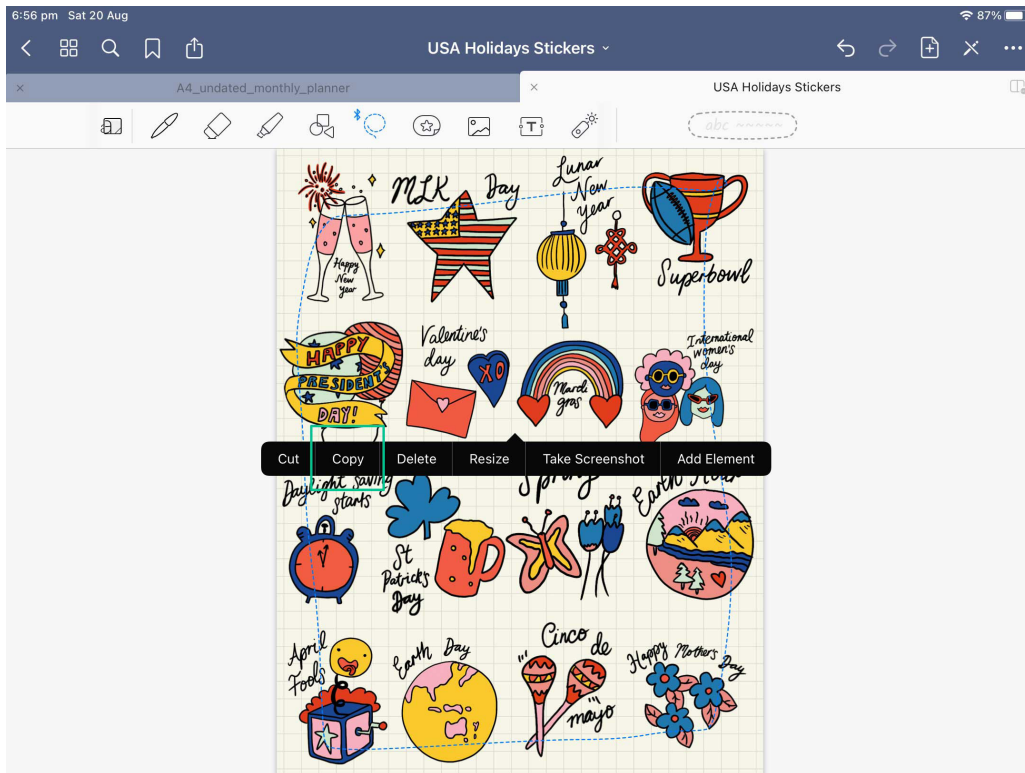

1. Open up your Goodnotes planner. Press on the pen icon. Insert a new blank page.

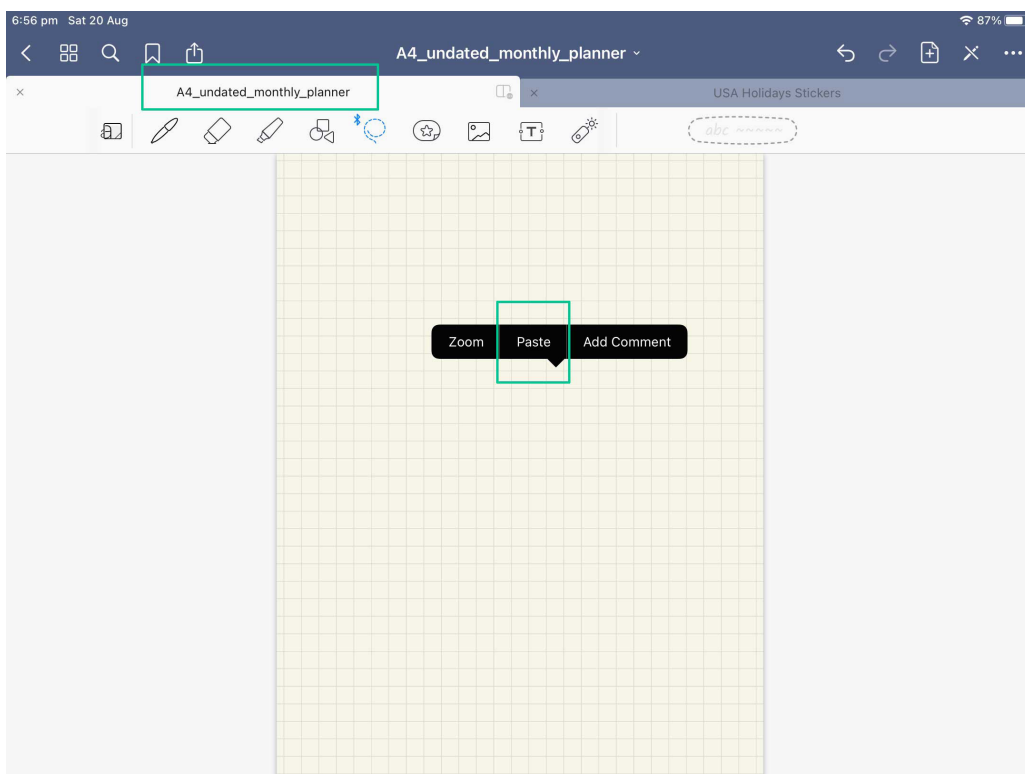

2. Open up your Goodnotes digital sticker file. Use the lasso tool and draw around all the stickers (see blue dotted outline.)

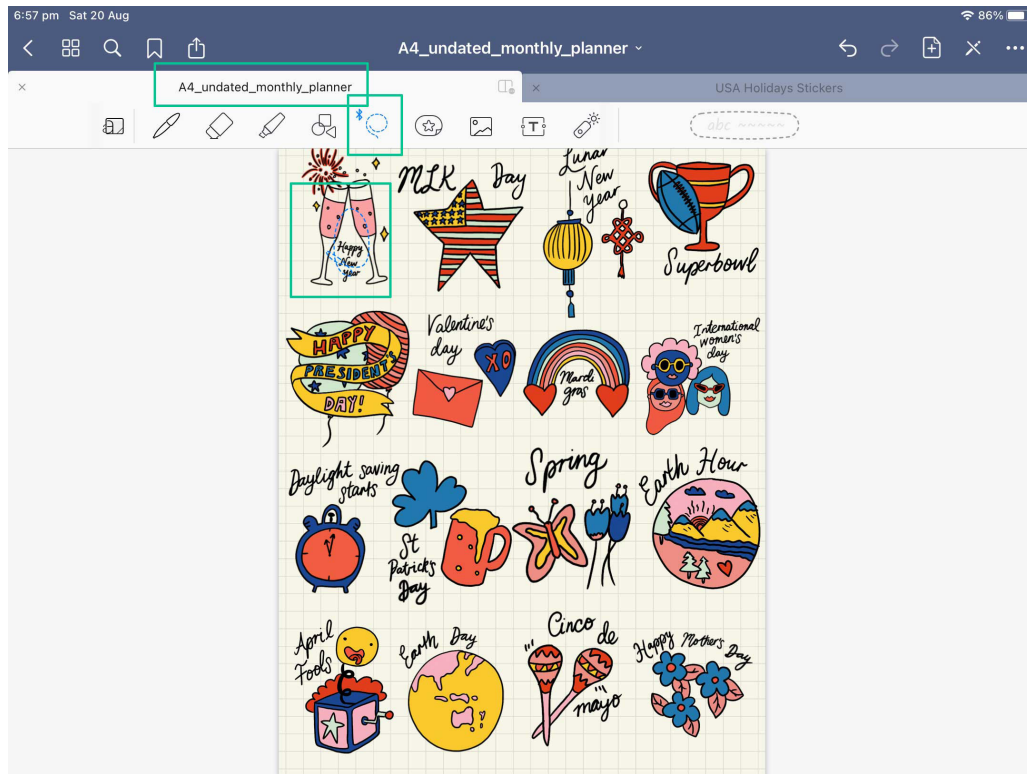

3. Use your Apple pencil or finger, hold down on the selected area for 3 seconds, until this black menu pops up. Press copy to copy entire selection.

4. Click back onto your planner tab. On the empty page you previously inserted, use your Apple pencil or finger and hold down on the screen for 3 seconds, until this black menu pops up. Press paste to paste copied stickers.

5. All the stickers copied are now pasted inside your planner. Use the lasso tool to select any individual sticker. You can drag this sticker anywhere, or else copy and paste the selected sticker onto another page.

6. Enjoy your planner stickers!
